## BATHROOM REMODELS

Thinking about remodeling your outdated bathroom? A new bathroom not only updates your home, but increases its value as well.

A bathroom remodel can include marble slab or tiled shower walls, matching vanity tops with under-mount sinks, ceramic tiled flooring, hardwood vanity or pedestal sink, frameless glass shower doors, and matching bathroom trim such as shower valve, faucet, towel bars, tissue holders, coat hooks, and light fixtures.

## KITCHEN REMODELS

We work closely with a local cabinet maker to create custom kitchens at an affordable price. Our specialty is hand-made hardwood cabinets, crafted specifically for your kitchen. Key features include dove-tailed fully-extendable drawers, under-mount hinges, full crown moulding packages, under-cabinet lighting, granite countertops, under-mount sinks, tiled back splashes, an island with bar seating if room allows, built-in appliances, recessed and pendant lighting, tiled or hardwood flooring. We will work with you to design the chef's kitchen of your dreams!

## HOME REMODELS

*Before*

*After*

Home remodels consist of bedroom, bathroom, second story additions, modifications to roof lines and facades, as well as interior remodels that can include major floorplan modifications.

If you are considering a home remodel, please call for a free consultation.
